Ashley Van Rooyen

ICT STUDENT

I am passionate about leveraging technology to develop digital solutions that align with company requirements. I consistently strive to utilize my skills in network communication, programming, leadership, and advanced computing to achieve impactful results and drive organizational success.

EXPERIENCE

STATSSA (Statistics South Africa) Supervisor

(01/01/2022-01/06/2022)
As a Supervisor for STATSSA, I played a crucial role in overseeing field workers during the national census. My responsibilities included ensuring accurate data collection, assisting with technical difficulties on Tablets, managing team logistics, and guiding staff to enhance their effectiveness. By fostering open communication and addressing challenges in the data-gathering process, I proved my leadership skills

Vermeulens Salesperson
September 2024-April 2025

Provided advanced client solutions using digital measurement software. Delivered accurate construction quotes and achieved a notable R1M+ sale milestone. Developed strong communication and client-facing sales skills.

RESTURANT BAR MANAGER- NEW RUSH
January 2019-March 2020

In my role as a Restaurant Bar Manager, I oversaw daily operations with a focus on data capturing and technology integration. I managed the point-of-sale system to ensure accurate transactions and inventory tracking, analyzing sales data to identify trends and optimize stock levels. By implementing data-driven solutions, I improved operational efficiency and profitability, while training staff on technology for enhanced order management and customer engagement.

OBJECTIVE

To achieve both company and team goals through hard work, effective time management skills and organizational skills. I am motivated to learn, grow and excel in any industry I find myself in. To obtain a challenging position where my creativity, problem-solving skills, and experience in Information Communication Technology can be utilized to enhance user experiences and drive business objectives.
